

SiReMa Agro A_0.5 White

Premium upcycling regranulate

PRODUCT DESCRIPTION

SiReMa Agro A_0.5 White MFI 0,5g/10min – an advanced, triple-filtered material characterized by exceptional homogenization.

TECHNICAL DATA - OVERVIEW

Applications	Agricultural and industrial films, protective films. Additive, modifier for polyolefin blends to improve sealing performance and the mechanical properties of the finished product.
Type of plastic / Material:	LLDPE / LDPE
Recycled content (PCR)	-
Source	Post-industrial, various sources
Colour	White
Certificate	-

TECHNICAL DATA - PHYSICAL PROPERTIES

	Nominal Value (SI)	Unit	Test Method
MFI	0,3-0,7 (±0,2)	g/10 min (190°C/2,16 kg)	PN-EN ISO 1133
Density (base resin)	0,98 - 1,15	g/cm ³ w 23°C	PN-EN ISO 1183
Filtration	300	µm	-
Ash Content	<10	%	PN-EN ISO 3451
Thickness	45 - 400	µm	-

PACKAGING

Standard packing	Size of pallet	Weight of full truck
Big bag, 1000 – 1250 kg and silo truck	1,20 x 1,20 m	Max. 24 000 kg netto

Revision date: 13.03.26r.
